Well, we will probably have to circle back at some point to confirm, but that is what she says.

We can talk on Monday. See you then!

she wasn't clear at first but then she sent a message saying that they would let us collect.

One down!

No, I think she's leaving that up to us. The [] facility will let us collect samples. WE don't have to tour it but at least we have a facility that will let us in to collect.

Maybe they will want us to tour to set the stage for collection. Not sure about that.

Thank you. So, is Mary Sikora recommending this facility over [REDACTED]?

Jackie,

What a pleasure to meet you and the rest of the team. I think everyone came away with a new picture of how tires are handled, downsized and recycled.

I want to pass on a contact for the [REDACTED] Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]] They do make crumb rubber in the infill size as well as crumb rubber for other markets. It's a very good plant and they welcome a visit.

You should contact:

Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]]

I spoke to [REDACTED] yesterday and he is aware that you will be calling or contacting him by e-mail.

[REDACTED] is a long time colleague and extremely knowledgeable about tires. I know he will set up an excellent tour for you.

All the best,

Mary
